- PAPER: Use an 1/8th sheet of paper for your use of 140 lb. cold press watercolor paper in Strathmore Gemini, and a sketch pad. We will learn how to mount it in the class but just make sure you bring a backing board. I offer the new Amatruda Paper for sale in this class in a variety of sizes.
- BRUSHES: Kolinsky Sable brushes; best number for all around use is a #10. These brushes are very expensive so just buy one if you want to. If you have other brushes already bring any of those. Try to buy a mop brush or round made by Dynasty or Isabey in a 10 size and a Silver Black Velvet Brush 3000S Round Brush Series and Winsor Newton Series 995 flat synthetic brush.
- MISC. SUPPLIES: Pencils for sketching and one roll of 1" wide or thicker of masking tape OR Scotch tape.
- BACKING BOARD: Any type of foam core board or Masonite or still backing that you can tape to. Bring 16" x 20" or larger
- PALETTE: I use the new small Holbein Pallette that sells for around 7.00 and is plastic for watercolors that you can get at most art stores, but if you have an existing palette bring that, but wash other colors off and only bring the following three colors.
- EASEL: Collapsible or French Easel, OR POCHADE BOX. If bringing a metal easel, make sure you have a folding side table for your supplies.
- PAINT COLORS: This list is the must have colors:
 - Transparent yellow (Winsor Newton)
 - Permanent rose (Winsor Newton)
 - Winsor Blue/green shade
 - Please do not bring any substitutions of other brands or colors other than these three colors and only one pallet.
- PANS for mixing. There are many small pans that are made for working outdoors I personally am a big fan of the plastic egg cartons as you can mix so much color....and you get the eggs also!!!!!!!!!!!!!!
- Bring any additional colors that you have already, but make sure to have the three staining colors above.
